Inflatable seals for the Marine Industry

Inflatable Seals

Inflatable seals

Machined seal housings

“ Contact us to talk to our sales engineers or to arrange a site visit to discuss your application or requirement in detail. ”

Our range of inflatable seals are an ideal solution for reliable weather tight and UV/ saltwater resistant sealing. Our team has all the experience, and latest 3D modeling technology available to work with you from the outset, and develop a high end solution using existing or bespoke profiles.

Product Features

- Precision Spark Eroded Vulcanisation tooling, and strict extrusion tolerance ensures highest quality of vulcanisation
- Over 100 profiles available in FDA silicone, Anti-Microbial Silicone, FDA EPDM, FKM and many other materials
- Precision moulded rubber valves, and machined steel valves to suit vast range of housings adhering to stringent leak rates
- Unique seal identification number providing detailed traceability for each individual seal supplied
- Rapid cycle fatigue testing available providing accurate, application specific cycle life estimates
- High Quality of Vulcanisation in almost any RAL number for aesthetically stunning seal/door combinations

Guarantees / Accreditations

- ✓ UK based ISO accredited manufacture
- ✓ Specific material certification (FDA compliance for eg)
- ✓ Individual seal pressure test certification

Inflatable seals

We can produce an incredible number of different designs , using our wide range of profiles and tooling (including 90 degree corner seals for axial inflation). Below is just a short selection of marine applications we have covered...

Typical Marine Uses

- Transom Hatches
- Patio Doors
- Companion way doors
- Tender Doors
- Sun Decks
- Forward Hatch Seals for racing
- Composite moulding
- Vacuum forming

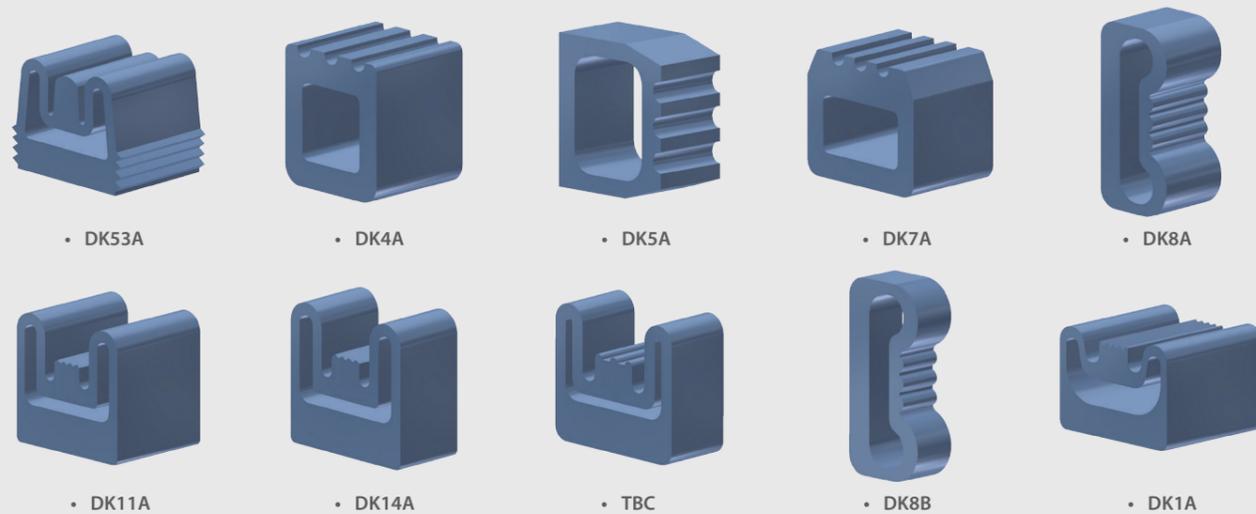

Bespoke door and window seals

Inflatable Seal Profiles

Below is a small selection of available profiles. We actively encourage technical interaction between our team and your engineers in order to choose the correct profile, however should you require more detailed information on one of the below profiles specifically, please feel free to request a data sheet.

Profiles

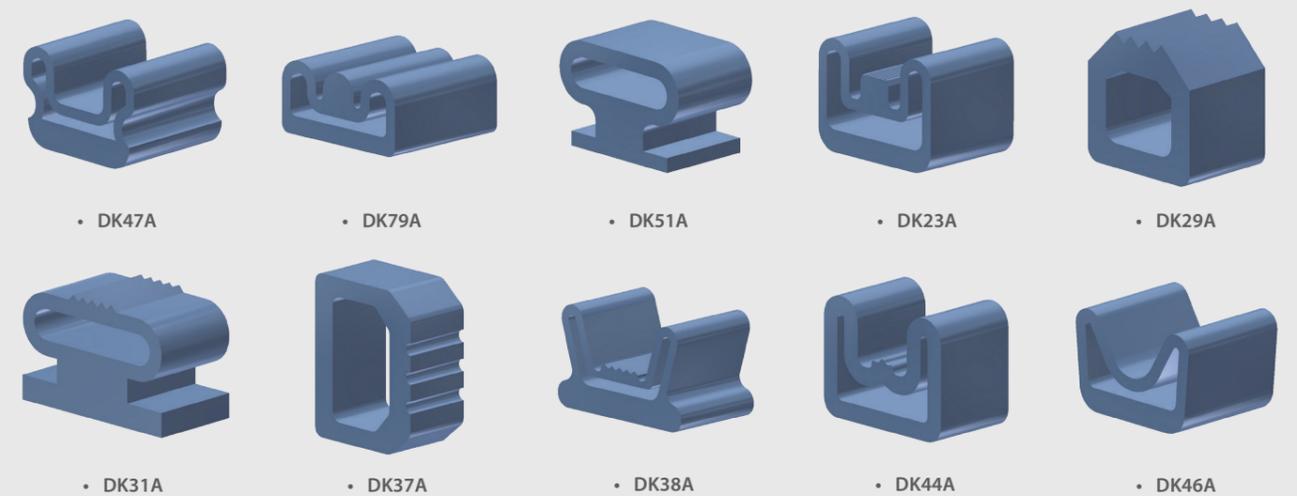

Specifications

Profile Reference	Width (mm)	Relaxed Height (mm)	Inflated Movement (mm)
DK53A	17	14	8
DK4A	16	18	3
DK5A	35	32	6
DK7A	20	17.5	4
DK8A	50	24	18
DK11A	24	23	12
DK14A	35	28	20
TBC	TBC	TBC	9
DK8B	TBC	TBC	28
DK1A	17	12	6

*All of the above information is given as a guideline only, for more detailed technical guidance please contact our technical team.

Profiles

Specifications

Profile Reference	Width (mm)	Relaxed Height (mm)	Inflated Movement (mm)
DK47A	18	12	9
DK79A	17	8	7
DK51A	25	19	10
DK23A	20	15	12
DK29A	20	20	4
DK31A	30	21	13
DK37A	34	27	5
DK38A	24	16	11
DK44A	26	20	13
DK46A	20	13	7

Portable rapid cycle testing on site or at the clients premises
